Birch

Oak

Walnut

Tinted Black

Green-Green

The furniture in the 'C' series and all our coming furniture are marked with our 'eco'-symbol. This implies that we do all we can to minimize our ecological footprint. We use natural-material produced as close to the factory as possible (we replant furniture trees locally to make this even better in the future). Glue and other non-natural components are chosen from the most sustainable alternatives and we continually work on minimizing this use and on searching for even more sustainable alternatives
